| Education | 2020-2022 Pasadena, CA | Art Center College of Design Master of Science in Industrial Design |
| | 2014-2018 Beijing, China | Tsinghua University Bachelor of Art in Product Design |
| Experience | 2022 Pasadena, CA | PEAK USA Design Center Footwear Design Intern / FULL-TIME Created story and design for two special collaboration colorways of TAICHI Cloud slide. Identified and proposed a new footwear product for the TAICHI Cloud 1.0 family. Work includes research to tech pack. An active participant in brainstorming and modeling to assist ideations for the LA design team in TAICHI Cloud 2.0. |
| | 2020 Xiamen, China | 361 Degrees (China) Co, ltd Associate Footwear Designer / FULL-TIME A member of the running shoe design team. Designed and completed the work from sketch to 1st round samples for the 2021 Q2 season Star trail running shoe in 2 month. As a member of the training shoe design team, I performed research and provided designs, sketches, tech packs, and sample corrections on 2-4 pairs of training shoes per season. Two shoes I designed and completed in Q1 and Q2 of 2021 were released to the market. |
| | 2019 Portland, OR | Pensole Footwear Design Academy 2D Footwear Designer / STUDENT Collaborated with a local architect firm to develop a collection for working homeless to support their living in Design Intensive Program. During the process, I interviewed, defined problems, sketched, and worked with a pattern maker to build a low-cost working boot for the working homeless. The final team work was presented to the public. |
| | 2018-2019 Shenzhen, China | SUNUNO Industrial Design Co, ltd Associate Industrial Designer / FULL-TIME Designed multiple consumer electronics projects, including 3D metal printer, outdoor battery, smartwatch, controller, etc. The Uprise 3D metal printer was released to the market. |
